DESIGN STAGE SIGN OFF

NOTES

Road Section A

Scale 1:100

Compound Shingle 100.80 — 104.12 — 105.24 — 101.44 — 1:34 — 102.10

FUTURE ROAD CONSTRUCTION

BELLMOUTH CONSTRUCTION

2No Existing 33kv Cables & Pilots, to be protected during construction phase

Existing 11kV Overhead lines

Wire mesh 1.4m boundary fence

SITE STORAGE & PARKING FOR CONSTRUCTION WORKS

Entrance Gates

Proposed Palisade entrance gates & splay fencing

Proposed 1800 high open mesh steel boundary fencing to bs 1722 part 14 to 2no sides & entrance splays to substation site

Remove existing 1.4 m high wire mesh fence between new 1.8m high fence and edge of bellmouth

Install 125x255HB2 – 125x150BN external radius dropper kerbs (LH & RH) to both sides entrance splay

Install 125x255HB2 & 125x255HB2 15m external raised radius kerbs to side entrance splay

Make good edge of existing roadway to match existing as necessary

Install flat 125x255 pre cast concrete kerb across entrance splay on line of existing wire fencing to mark highway boundary

Install 150x125BN pre cast concrete bullnose kerb with 25mm upstand across new site entrance to edge of existing carriageway

Install 125x255HB2 & 125X255HB2 10m external raised radius kerbs to side entrance splay

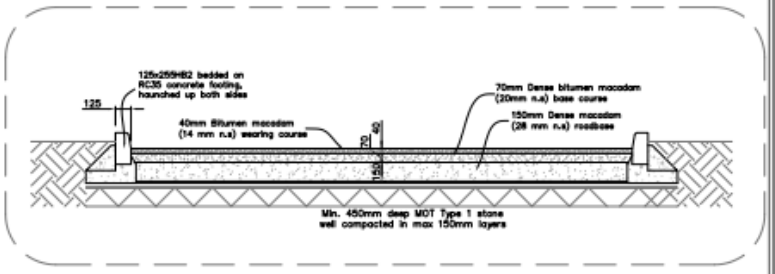

Install 125x255HB – 125x150BN external radius dropper kerbs (LH & RH) to both sides entrance splay

Coombe Fields Road

NOTE:
Bellmouth falls away from Coombe Fields Road back into the site – All SW drainage dealt with locally
